

# *MY CITY MY DREAM*

## *What is MY CITY MY DREAM ??*

**Tecnoesis 2020** presents you the much awaited event ***"My City My Dream"***, which comes under SMART CITY module.

Nowadays everyone is aware of smart city. A smart city is a designation given to a city that incorporates information and communication technologies (ICT) to enhance the quality and performance of urban services such as energy, transportation and utilities in order to reduce resource consumption, wastage and overall costs.

## ***PROBLEM STATEMENT ::***

The smart city aims on implementing your smart city features that affects the urban areas. Under this event the participants have to create a powerpoint presentation based on the following points:

- ★ What is **Smart city** ?
- ★ Aspects that need to be developed under smart city- Smart Irrigation and water

management, smart waste management, smart parking, traffic control etc.

★ How can you make a city smart ?

-Take any city **except SILCHAR** for instance and implement the ideas of smart city .

★ Smart SILCHAR!!

-Suggest an idea that you want to implement in SILCHAR to make it smart .
